

1. Please leave all your cell phones, mp3 players and iPods, personal game systems, and other electronic equipment at home. If we find one... it's ours until we get home. We desire to foster relationship with each other, not technology.
2. Guns, alcohol or tobacco products, fireworks, illegal drugs or other controlled substances are NOT allowed.
3. Shaving cream, lighters, pocket knives, or anything else that could help you be mischievous should stay at home.
4. No Lavender. Girls and guys should not be hanging 'on' each other, but they can hang 'out' together. You can feel free to talk and sit with each without all the fanfare of holding hands, backrubs, kissing, etc.
5. Stay with the group. Wandering around alone just leads to getting lost, in trouble, or leads to accusations. Accountability takes place in groups, not alone.
6. Be on time. We give you plenty of time and a schedule to get from place to place.
7. Check in all your medications to a responsible adult! For your safety we'll ask that you see the nurse for your medications instead of keeping them with you on overnight stays.
8. Follow the rules. Anywhere we travel/stay will have it's own set of rules. Follow them. If you have any problems, consult one of our staff first.
9. Any damage you cause will need to be paid by you!
10. If we have problems with you following any rules, you will be asked to leave and/or be picked up by a parent/guardian.
